

Make a PONY Christmas pud!

Your fave pony will love you forever when you make him the best Christmas pressie he could wish for!

You'll need:

- A round loaf of bread
- Sugar beet
- Apples
- Carrots
- Pony treats
- A knife
- A bucket
- A spoon

How to!

1

1. Follow the instructions for soaking the sugar beet. Half a scoop of dried beet is plenty for two ponies (and a Colonel!)

2

2. Chop up the apples and carrots into small pieces.

3. Carefully cut a round 'lid' out of the top of your loaf of bread, and keep. (Ask an adult to help with this.) Hollow out the inside of the loaf by hand.

5. Spoon the mixture into the hollowed-out loaf of bread, and replace the 'lid'.

5

4. Mix together the soaked sugar beet, apples, carrots and pony treats.

3

Got a local duck pond? They'll appreciate the unused bread as a winter treat!

If your fave pony likes swede, why not add some to the mixture, too?!

If your fave pony's on a diet, make up less sugar beet, and mix some chaff in, too, for a lower-calorie treat!

yum yum

yum yum

Warning!
Never cut carrots into rings, always chop them into fingers.
